

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-23896

Stream : Little Indian Creek

Applicant : Bill Lyskowski
Franklin Township Trustee
7245 Redden Way North East
Lanesville, IN 47136-8101

Description : Approximately 2600' of the stream's eroded banks will be restored to a 1:1 and 2:1 slope in various areas. The backfill material; an existing sandbar and creek gravel, will be excavated 2' to 3' in depth from the streambed. Also, trees and debris will be removed, small trees will be planted and Willow stakes will be inserted into existing riprap. All disturbed areas will be vegetated and restored to its pre-eroded conditions. Details of the project are contained in information and plans received at the Division of Water on June 26, 2006 and October 20, 2006.

Location : Beginning approximately 300' downstream of the Tandy Road stream crossing extending 2600' downstream (southwest)
DOWNSTREAM: at Lanesville, Franklin Township, Harrison County
NW¼, SE¼, NW¼, Section 20, T 3S, R 5E, Lanesville, IN-KY Quadrangle
Quad Code: 3808528
UTM Coordinates: Downstream 4232525 North, 588700 East
UPSTREAM: NW¼, NE¼, NE¼

UTM Coordinates: Upstream 4232950 North, 589399 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-24027

Stream : Seberger Ditch

Applicant : Prism Painting Company Inc
Jim Mitchell
PO Box 1944
Highland, IN 46322-0944

Description : A 60' by 104' pole barn will be constructed at existing ground elevations. The building will have a finished floor elevation of 625.4', NGVD29. Details of the project are contained in information and plans received at the Division of Water on October 5, 2006.

Location : Approximately 690' west and 2100' south of the Main Street and Kennedy Avenue intersection
DOWNSTREAM: near Schererville, St. John Township, Lake County
SW¼, SE¼, NW¼, Section 4, T 35N, R 9W, Highland Quadrangle

30 Day Public Notice Report

Application # : FW-24028

Stream : Unnamed Tributary Main
Beaver Dam Ditch

Applicant : Olthof Homes LLC
Joe Lenehan
8051 Wicker Avenue
Suite A
St. John, IN 46373-9390

Description : A residential community consisting of single and multi family residences is proposed. Approximately 1 mile of the Ditch and Tributary BL will be re-shaped to provide sufficient conveyance to contain the 100-year flood. The new channel will be approximately 10' deep with 4 to 1 side slopes and varying bottom widths. The project will include the replacement of a 6' CMP culvert at an existing road crossing and the addition of a new culvert and road crossing near the western property boundary. Both culverts are designed to pass the 100-year flow rates and the two road crossings will be elevated above the base flood elevations. Details of the project are contained in information and plans received at the Division of Water on October 5, 2006.

Location : Approximately 1500' upstream of the Clark Street stream crossing
DOWNSTREAM: near Crown Point, Center Township, Lake County
SE $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, Section 36, T 35N, R 9W, St. John Quadrangle

30 Day Public Notice Report

Application # : FW-24031

Stream : Thorpe Creek

Applicant : *Indiana Department of Transportation
Richard L Phillabaum
100 North Senate Avenue, Room N642
Indianapolis, IN 46204-2216

Description : The existing single span concrete box beam bridge carrying State Road 238 over Thorpe Creek will be replaced with a new single span prestressed concrete box beam bridge with a span length of 66'. The structure will have an out-to-out length of 40' and a clear roadway width of 37'. The spill through abutments will have 2:1 sideslopes armored with revetment riprap over geotextile fabric. The abutments will be square with the channel. The maximum grade raise will be approximately 1.5' at the east approach slab. The existing structure will be completely removed. The project is federally funded. Details of the project are contained in information and plans received at the Division of Water on October 10, 2006.

Location : At the State Road 238 stream crossing
near Fortville, Fall Creek Township, Hamilton County
NW¼, NW¼, NE¼, Section 31, T 18N, R 6E, McCordsville Quadrangle
Quad Code: 3908588

30 Day Public Notice Report

Application # : FW-24034

Stream : Unnamed Tributary Turkey Creek

Applicant : GCC Merrillville Venture LLC
Joe Gupta
1111 Plaza Drive
Suite 200
Schaumburg, IL 60173-6021

Description : A 103 acre residential and commercial development in Lake County is proposed. The stream will realigned through an 80' wide corridor across the project site. The proposed realignment will restore the channel to its historic (pre-existing alignment). Five (5) new culvert crossings will be placed in the tributary to carry flow under the proposed subdivision roadways. Base flood elevations upstream of the property will be maintained in proposed conditions, as will floodplain storage. Details of the project are contained in information and plans received at the Division of Water on October 12, 2006.

Location : Approximately 2500' downstream of US Route 30 stream crossing
DOWNSTREAM: near Merrillville, Ross Township, Lake County

30 Day Public Notice Report

Application # : FW-24035

Stream : Gibson Ditch

Applicant : Lauth Property Group
Mike Hartman
401 Pennsylvania Parkway
Indianapolis, IN 46280-1385

Description : Graded restoration is proposed to create a wetland as part of a mitigation plan for an offsite construction project. A berm will be elevated a maximum of 2' above existing contours along the western limit of the property otherwise the project will be excavated at or below grade. The entire site will be replanted with a variety of native grasses, sedges, trees, and shrubs. Details of the project are contained in information and plans received at the Division of Water on October 10, 2006 and October 13, 2006.

Location : In the right overbank beginning approximately 1000' upstream of the confluence with Buck Creek and continuing upstream approximately 950'
DOWNSTREAM: near Medford, Monroe Township, Delaware County

30 Day Public Notice Report

Application # : FW-24036

Stream : Clear Creek

Applicant : Lauth Property Group
Mike Hartman
401 Pennsylvania Parkway
Indianapolis, IN 46280-1385

Description : Approximately 300' of the left (south and west) bank of Clear Creek will be stabilized with the installation of 6 bendway weirs placed 50-75' apart and approximately 216 tons of shot rock that will be keyed into the streambank. The weirs will project into the stream approximately 20' and have a slope of 1.5:1 or flatter. Also, the 7' diameter culvert carrying the Mapletown Utilities access road will be replaced with three 5' diameter corrugated metal pipes in an effort to reduce inundation of the road. The inverts of the culvert system will be installed a minimum of 5.25' beneath the proposed low point of the road. The approach road to the northeast of the culvert will be raised a maximum of 2.8'. Further upstream, approximately 5300' of stream corridor will be enhanced by planting a variety of native trees, shrubs, and grasses as well as by creating four amphibian breeding pools. For each pool, an area approximately 1000 square feet will be excavated one foot deep and amended with bentonite. Fallen trees will be placed within and adjacent to the pools for habitat. Details of the project are contained in information and plans received at the Division of Water on October 10, 2006 and October 13, 2006.

Location : Beginning approximately 1500' downstream of the confluence with WFK White River and continuing upstream in periodic increments for approximately 5700'

30 Day Public Notice Report

Application # : FW-24045

Stream : Buck Creek

Applicant : Town of Cumberland
D. Jeffrey Sheridan
P.O. Box 29155
Cumberland, IN 46229

Description : The Town of Cumberland, Indiana proposes a landscape architectural design and engineering of the Cumberland Pennsy Trail from German Church Road in Marion County to County Road 600 West in Hancock County along sections of the abandoned Penn Central Railroad. The Town of Cumberland has recognized the high demand for self-directed recreational activities within its town. In addition, the Town recognizes the need for the trail improvement along the abandoned Pennsy Trail not only as a recreational use, but also as an alternate mode of transportation from residential areas to places of commerce. The Pennsy Trail in Marion County is currently under design and terminates at German Church Road and will function in the same manner. Constructing a new trail corridor along the Pennsy Trail through the Town of Cumberland will meet the recreational needs of the local and area residents in addition to providing alternate modes of transportation connecting Indianapolis, Marion County, the Town of Cumberland and Hancock County. The trail will begin at the terminus of the Indianapolis Pennsy Trail on the east side of German Church Road. This trail connection will incorporate a trail node, identification signage, safety signage and a concrete sidewalk along the east side of German Church Road to the northwest corner of the Utility Station (water collection/distribution area for the parking lot runoff) property. The trail route will be eastward along the south side of the Meijer store property and its existing access drive. To accommodate the trail, a portion of the Meijer access drive from German Church Road will be re-aligned where it connects to the existing parking lot. On the east side of the Meijer property, a trailhead and connection with the National Road Streetscape will be included to provide access to the trail. The trailhead will utilize existing parking spaces within the Meijer parking lot. At the southeast corner of the Meijer property, the trail will continue east on the Town of Cumberland's (Town) property around the north side of the Schreiber lumberyard. At the southeast corner of the Town's property, the trail will cross Muessing Street at grade and turn south to reconnect with the R/R right-of-way where the trail will continue east. A second trailhead will be located and designed at the site of the existing Schreiber pavilion and storage building. These two structures will be incorporated into the trailhead design. At Carroll Road, the trail will utilize a new pedestrian bridge to accomplish the street crossing. Continuing east, the trail will cross Buck Creek by utilizing and upgrading the two existing railroad bridges. An overlook may be included in the proposed design at this location. The trail will continue east and cross County Road 700 West at grade. The trail will end on the west side of County Road 600 West and will include a small gravel parking area. The termini are logical for this project as the west terminus connects with the design of the Pennsy Trail in Indianapolis and the eastern terminus was selected due to funding constraints. The extension of the trail would be a part of Hancock

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

County's trail system. The project will include an at-grade crossing along the east side of Buck Creek in the floodway under the existing US 40 bridge in order to establish a connection to future trail alignment and National Road Streetscape development north of US 40. No fill will be placed under US 40 as part of this activity. Construction trail and associated fill will be required along US 40 in the southeast and northeast quadrants of its crossing with Buck Creek and in the floodway; however, stream flow through the US 40 bridge will remain unobstructed. There will be no adverse effect to the Buck Creek stream way since the proposed fill and walls are located along existing US 40 fill, and there is no roadway overflow. The top of the US 40 roadway is about 835' NGVD and Q100 elevation is about 834' NGVD (per FIS), at the US 40 crossing. Additionally, the existing railroad structures carrying the trail alignment over Buck Creek will be upgraded for pedestrian use. Specifically, the surface of the structures will be paved and railing will be added for pedestrian safety. The proposed upgrades and additions to the structures at this location will be contained entirely above the Q100 level of Buck Creek. Details of the project are contained in information received electronically at the Division of Water on October 20 2006.

- Location : The project is located in Sections 1, 2, 3, 4, Township 15 North, Range 5 East, and Section 6, Township 15 North, Range 6 East on the U.S.G.S. Cumberland, Indiana Quadrangle, in Warren and Sugar Creek Townships, Marion and Hancock Counties
